HACKER EVENTS NL HISTORY

INVITATION

GALACTIC HACKER PARTY

2nd, 3rd, 4th of August 1989

PARADISO, AMSTERDAM, HOLLAND

During the summer of 1989 the world as we know it will go into overload. An interstellar particle stream of hackers, phone phreaks, radioactivists and assorted technological subversives will be fusing their energies into a media melt-down as the global village plugs into Amsterdam for three electrifying days of information interchange and electronic capers.

Aided by the advanced communications technology to which they are accustomed, the hacker forces will discuss strategies, play games, and generally have a good time. Free access to permanently open on-line facilities will enable them to keep in touch with home base -- wherever that is.

Those who rightly fear the threat of information tyranny and want to learn what they can do about it are urgently invited to interface in Amsterdam in August. There will be much to learn from people who know. Celebrity guests with something to say will be present in body or electronic spirit.

The Force must be nurtured. If you are refused transport because your laptop looks like a bomb, cut off behind enemy lines, or unable to attend for any other reason, then join us on the networks. Other hacker groups are requested to organize similar gatherings to coincide with ours. We can provide low-cost international communications links during the conference.

For further information, take up contact as soon as possible with:

GHP

- Galactic Hacker Party
- ICATA (Intercontinental conference on alternative use of technology Amsterdam)
- 1989, 3 days, in Amsterdam

- Visitors already international:
 - Dutch Readers HackTic
 - German CCC people
 - USA readers of 2600
- Live connection between Amsterdam, San Francisco and Moscow
- Promotion of this new thing called email

SEQUEL!

VIRUS!

Bring your friends, and tell them to bring their friends, and tell them to tell their friends to bring even more friends. Show this to as many people as you can!

HEU?

Remember the G back in 1989? Eve opened to the peop out to big busine again! We're back That's right. On a 1993, we're organ mer congress f phunks, program data travellers, workers, hardwan chists, communie punks, system m paranoid androis: kids, warez dudes ficers (appropriate quired), guerrilla i other assorted bal unshaven scum. A ole of nowhere (w land, actually, but at the Larserbos tress below sea lev The three days w tures, discussion hacking, phreakin Unix security risk: fun, social enginee pickings, viruses, tions against hac elsewhere and m fish will be the l event, although o may take place in an Internet conno met and social i tronic and live). In four nights in yo cluded are inspir shortage of show

ME?

Yes, you! Busloads of alternative techno-freaks from all over the planet will descend on this event. You wouldn't want to miss that, now, would you?

Maybe you are part of that select group that has something special to offer! Participating in 'Hacking at the End of the Universe' is exciting, but organising your very own part of it is even more fun. We already have a load of interesting workshops and lectures scheduled, but we're always on the lookout for more. We're also still in the market for people who want to help us with the organisation of this event.

Geachte heer Gonggrijp,

In augustus 1993 heeft u het ANWB-terrein 'Het Larserbos' gehuurd t.b.v. een evenement.

Over de activiteiten die u daar destijds heeft georganiseerd is in de nationale en internationale pers nogal wat commotie ontstaan. De ANWB is daardoor op een negatieve manier in de publiciteit gekomen.

U heeft nu aangegeven het terrein te willen huren in augustus 1997 voor het evenement 'Mostly Harmless'.

U heeft ons daartoe al een eerste concept m.b.t. dit evenement gestuurd.

Echter, gezien onze ervaringen in 1993 zullen wij uw aanvraag niet honoreren en stellen wij het 'Larserbos' niet beschikbaar.

Wij wensen u veel succes met het vinden van een passende lokatie en met de organisatie van het congres.

Met vriendelijke groet,
ANWB

Marc Krebbers

WHY2025 LOOK AND FEEL

VOLUNTEER DRIVEN

- Events like BornHack and WHY2025 don't run themselves
- Organizing is loads of fun
- ~42 teams to join, from 0 to 100 years of experience
- Contact them directly or find us!
 - Boekenwuum@WHY2025.org
 - nancy@why2025.org

ORGA STRUCTURE

Angels - Volunteers on the field at the event

Supported by

Teams - responsible for making their work happen

Supported by

TeamLeads - coordinating and enabling their team

Supported by

Team Projectleading - Coordinating and enabling the Team leads

Supported by

Board of IFCAT - Legal entity and making sure the event happens every 4 years
